

# Wyoming Venture School Class Information

## Riverton

Off of North 1st Street in Riverton

**Monday • 9:30am-2:00pm • 2nd Semester**

**Science Adventures:** Get ready to ignite your curiosity! In this exciting class, students will conduct a different hands-on experiment each day, exploring various branches of science. From chemistry and physics to biology and beyond, this class brings science to life through discovery and fun.

**History and the Constitution:** Explore American history in a lively, engaging way as we dive into the lives of the Presidents, the Bill of Rights, and the Constitution through stories, songs, and rhymes. This exciting class sets a strong foundation in civic understanding and will continue into the second semester for deeper exploration!

**Art:** In this multi-age art class, younger students will learn about primary and secondary colors, sculpting, and painting, unleashing their creativity on canvas. Older students will take on projects with leather stamping, shaping, and fastening, creating unique pieces to bring home. This class encourages artistic expression across a variety of fun mediums!

**ASL, Calligraphy, and Cursive:** Dive into new ways of communication and expression by learning American Sign Language (ASL), cursive, and the beautiful art of calligraphy. Students will practice these skills in a creative and enjoyable setting, enriched with board games and outdoor activities to make learning even more dynamic and fun!

## MISSION:

*Helping families cultivate and embrace a culture of lifelong learning and success.*
